HENDERSON'S TESTED VEGETABLE SEEDS

REPRESENTE DE REPRESENTE DE REPRESENTE DE REPRESENTATION DE REPRES

Home gardeners throughout America can contribute to victory by raising, as far as may be possible, supplies of vegetables foods for the use of their families. As this food will be raised right on the spot, it will lessen the strain on the means of transportation, already taxed to the utmost limit. One result of the call to arms last year was that millions of Americans were transformed into gardeners, with the happy result that fully \$350,000,000 additional were added to our national wealth.

The possibilities of your vegetable garden have not been by any means exhausted when you have raised one crop of vegetables, and on the pages following will be found a list of seeds specially selected for summer sowing. THE FACT IS, YOU CAN DOUBLE THE OUTPUT OF YOUR GARDEN AND RAISE A HOST OF GOOD THINGS FOR THE TABLE FROM NOW ONWARDS UNTIL FROST ENDS GARDEN OPERATIONS. It has been noted by a keen observer who travels much in New York, Pennsylvania, New Jersey, Massachusetts and Connecticut, that some of the thriftiest vegetable gardens are planted after June 1st. Many varieties of vegetables yield larger crops from summer sown seed, than from spring sown seed, because the weather prevailing at the time the young plants attain any size is exactly suited to their requirements, and they are able to grow and complete their development without check. Keep on sowing rows of Beets until August, as they are always welcome on the table, and store well for winter.

Plant Bush Beans now and at other times up to the 1st of September, and you will reap additional harvests of sweet, tender pods. You can plant beans as late as July 25th and make the first pickings on Sept. 20th. Sow Sweet Corn every two weeks until July 15th. The early part of June is the time to sow Cabbage seeds for plants to set out for winter crop.

Now is the best time in all the year to sow seeds of root crops, such as Carrot, Beet, Turnip and Ruta Baga. Sow Ruta Baga in June and Carrot and Turnip in July. The young plants attain their true leaves when the weather is favorable to them, and grow right on without a check, consequently they are tender and palatable.

For your healths sake; do not omit to put in more rows of Lettuce, indispensable and necessary in every home. Sow up to Aug. 15th. Black Seeded Simpson and the curled varieties are the best to plant as they are great heat resisters. Don't waste any ground, but in odd corners sow radishes. White Summer Turnip Radish and Early White Tipped Scarlet Turnip Radish succeed well at this time. Besides the varieties specially mentioned there are many other seeds which may be sown during the summer with every assurance of reaping bountiful crops and they are listed in the following pages of this catalogue. The varieties marked "early" should be chosen for late plantings, because they mature more quickly than the varieties designated as "late."

LIST OF VEGETABLES OF WHICH ADDITIONAL SOWINGS MAY BE MADE JUNE 1st AND ONWARDS.

VARIETIES. Dates up to which they may be sown.
Beans Dwarf or Bush Every two weeks until Aug.

HENDERSON'S TESTED VEGETABLE SEEDS.

FOR SUMMER SOWING.

Henderson's Black Valentine.

GREEN-PODDED BUSH BEAN.

Possesses all the merits of our old favorite Red Valentine, and the pod is fully one-third longer. In addition it has other valuable points. The pods are extra long, round, straight and tender, and of a beautiful soft green color. It is also equally early, but has another advantage in that it is more suitable for late planting. In a test of the Extra Early Refugee, Henderson's Earliest Red Valentine and Black Valentine, conducted in the fall, we found that Black Valentine was fully as useful as Extra Early Refugee, being equally as hardy in every respect as the Refugee, while the beans were produced in enormous quantities. For any purpose, or at any time of the year, the bean will be found exceedingly valuable to all classes of growers. (See engraving.) Price, 15c. pkt., 45c. pt., 80c. qt., \$3.00

"I claim that Henderson's Black Valentine Bean is the champion of all the dwarf green-podded snap beans, for I have tested all the all the Black Valentine is the best for both early and late planting and will stand wet, cold weather. It is of the finest quality, easy to pick, and is the most productive bean on the market today, but they must be gathered at the viable time. today, but they must be gathered at the right time."
S. E. THURSTON, New Canaan, Conn.

Detroit Dark Red Beet.

Probably the best of the larger sorts. It succeeds equally well at all seasons, and is one of the best to sow in early spring, to succeed the extra early and medium crop sorts. It may be sown about August 1st (in this vicinity) for a crop to store for winter. The flesh is solid, always tender, of good flavor and excellent color. Price, 10c. pkt., 35c. oz., \$1.20 ½ lb., \$4.00 lb.

HENDERSON'S Early Blood Turnip Beet.

This is a great improvement upon the old standard variety, Early. Blood Turnip Beet. It is a great favorite with many gardeners and is very attractive in appearance, the roots being smooth and uniform, and the color deep blood red. The flesh is tender and sweet, and it is an excellent variety for canning.

This variety should be sown for a late crop on account of its quickness in maturing. For winter storage it is unexcelled. (See engraving).

Price, 10c. pkt., 35c. oz., \$1.20 1/4 lb., \$4.00 lb.

HENDERSON'S SELECTED Half Long Danvers Carrot.

A handsome, stump-rooted Carrot of a rich, dark orange color. It grows to a large size; is smooth, and the flesh very close in texture with very little core. It is a first-class Carrot for all soils and has yielded 25 to 30 tons per acre, with the smallest length of root of any now grown. It is excellent to store for winter. (See engraving).

Price, 10c. pkt., 35c. oz., \$1.20 1 lb., \$4.00 lb.

HENDERSON'S

Big Boston Lettuce.

A GRAND, LARGE, CABBAGE LETTUCE. Big, Compact, Tender and Crisp, Creamy-White Heads.

This grand variety, introduced into cultivation by us, is now more extensively grown than any other kind of Lettuce, whether grown in the open ground for early summer and fall use, in frames for spring, or forced cool in greenhouses for winter. It gives both grower and consumer the utmost satisfaction, producing, under ordinarily favorable conditions, splendid, large, creamywhite heads, packed with thoroughly blanched leaves, crisp, tender and sweet, delighting both the palate and the eye. This grand variety makes a handsome plant, with but few outside leaves, and stands long before bolting to seed. Big Boston is one of the best large-heading Lettuces, and, while it succeeds at all seasons, except during the very hottest months, it is peculiarly adapted for late fall culture. Large areas of it may be seen in the vicinity of New York as late as Nov. 15th; a slight covering of salt marsh hay amply protecting the plants from hard frosts, which when cut for market are as fresh, bright and untinged as at any season. Thousands of acres of it are grown during the winter in Florida and other Southern States. (See engraving).

Price, 10c. pkt., 30c. oz., 75c. 1 lb., \$2.50 lb.

Chinese Cabbage. (Pe Tsai.)

This is quite distinct from ordinary cabbage, and somewhat resembles Cos Lettuce; in fact it is called by some "Celery Lettuce."

It was introduced to this country from the province of Shantung, China, and has become popular in some sections. The heart is used in various ways; such as for making Salads, Cold Slaw, &c., &c., and having a mild and delicate flavor, it is much enjoyed when eaten raw. Pe Tsai may also be cooked in the same manner as cabbage, but being very tender the beiling must be done quickly. The plants grow best in a rather moist soil, which should be enriched as much as possible, but they will succeed in any good garden ground.

Late sowing of seed is necessary, as the plants grow rapidly, and are apt to run to seed in hot weather. For a fall or winter crop sow seed outside in drills in July. crop sow seed outside in drills in July. The rows should be 20 inches apart and the plants thinned out to 18 inches apart in the rows. Water frequently, calibrate same as cabbage and it the weather is warm at the time of heading up, the up the plants in the same way as Endive is tied. The heads may be stored for the winter by covering with straw and enough earth to keep out the frost.

Price, 10c. pkt., 50c. oz., \$1.75 1 lb.

Henderson's Superior MUSHROOM SPAWN.

Mushrooms may be grown by anyone having a supply of fresh horse manure and a shed or cellar or a space under a greenhouse bench where a temperature of 50 to 60 degrees is evenly maintained. They make a most profitable crop when successfully grown, and our superior Spawn, has given splendid results. It is sold in bricks weighing about 1½ pounds, enough when broken into two inch pieces to "spawn" a bed of about 9 square feet.

American "Pure Culture" Mushroom Spawn.

It is now possible to reproduce mushrooms for individual specimens, applying the same principles as used in the selection of other plants. The Spawn we offer is grown from spores taken from specimens of good form and may be relied on to produce a similar crop. It is sold in flat bricks about 1½ inches thick. One brick may be broken into two inch pieces and placed 12 inches apart, to spawn an area of nine square feet. (See engraving). Price per brick 30c., 10 bricks for \$2.75, 100 bricks for \$25.00. Purchaser paying carriage.

Purple Top White Globe Turnip.

This is a large, globe-shaped variety, white flesh, fine grained, tender and sweet. It is a true table Turnip and one of the best and is extensively grown and pitted for fall and winter, being a good keeper. The best crops of turnips are grown from summer sown seed. Sow 1 oz. for 100 feet of drill, 1½ to 2 pounds in drills per acre. (See engraving.)

Price, 5c. pkt., 20c. oz., 70c. 1/4 lb., \$2.50 lb.

Ruta Bagas

FOR TABLE USE.

Sow 1 oz. for 100 feet of drill, 2 or 3 lbs. per acre in drills.

Henderson's Long Island Improved Ruta Baga.

It is very large, has no neck, and is a remarkably good keeper; the flesh is rich yellow, of fine quality. Price, 5c. pkt., 25c. oz., 85c. ½lb., \$3.00 lb.

Improved American Purple Top Ruta Baga.

Considered the standard American Ruta Baga by the best posted farmers. Very popular, both for stock feeding and home consumption. The flesh is yellow, it is hardy, productive and a good keeper.

Price, 5c. pkt., 25c. oz., 85c. 1/4 lb., \$300. lb.

25 35 1.20 4.00 25

Half Long, Henderson's. Free from woody fibre.. 10 Long Smooth Blood-Red An excellent late variety CABBAGE. (1 oz. produces 2,000 plants; 1/2 lb. to transplant for an acre.)

25

Autumn King, Henderson's. (Crop failed.)

Charleston Wakefield Henderson's. A larger variety of Early Jersey Wakefield but not as early as the original stock. The pointed-head Cabbages are preferable to the larger flat kinds.
When used fresh from the garden they are of excellent quality, quite free from the coarse rankness so commonly associated with Cabbage. Henderson's Charleston Wakefield is larger, fully equal in quality to any of its class and admirably suited to succeed the very early sorts.

Early Spring, Henderson's. Earliest flat headed cabbage; produces excellent heads early in the season.

Season.

Barly Summer, Henderson's. The standard. It is fit for use right after the extra early sorts. It forms large solid flat heads weighing 8 to 10 lbs. each. (See engraving.).

Succession, Henderson's. Best for general use.

The heads are enormous in size, extremely solid, and it grows well at any season.

and it grows well at any season.

Late Flat Dutch, Henderson's Selected. A well known variety; forms large solid heads, and winters well. A description seems unnecessary, whem most of our patrons know it so well. It is just a good Cabbage in every respect. Grows easily, cooks easily, tastes good, and will for many years to come be highly esteemed Our stock is just as good as ever and we are sure it will please.

Premium Flat Dutch. A Standard and appellent

Premium Flat Dutch. A Standard and excellent, variety, developing earlier than most late sorts but not so good a winter keeper. For fall use it is tender and of superior flavor. Premium Flat Dutch Cabbage has a short stem, large outer leaves and is a very sure heading variety. The heads are uniformly large and solid, and it is preferred by many as the ideal large late Cabbage....

A SELECTED LIST OF

FARM SEEDS

FOR SUMMER SOWING

Prices of Farm Seeds are subject to change without notice.

Purchaser pays transportation on Farm Seeds. If wanted by Parcel Post add postage according to Zone rates on page 2 of cover.

MANGEL WURZEL and SUGAR BEETS.

The best soil for Mangels is friable loam deeply plowed and in such soil the yield is from 20 to 30 tons per acre. The ground should be well enriched and the seed sown in drills 24 inches apart in light soil, and 30 inches apart in strong rich land. Thin out the plants to 9 inches apart in the former and 12 inches apart in the latter. Sow 6 to 8 pounds of seed per acre if sown with a drill, or double that quantity if sown by hand.

Colossal Long Red (Henderson's). A valuable improved Colossal Long Red (Henderson's). A valuable improved and distinct variety. Extra large, long roots; very nutritious. Price, ½ lb., 75c.; lb., \$2.00; 10 lbs., at \$1.90 lb. Champion Yellow Globe (Henderson's). Smooth large, round roots; yellow flesh. Price, ½ lb., 75c.; lb., \$2.00; 10 lbs., at \$1.90 lb. Giant Intermediate (Henderson's). Big yielder; handsome, large void roots. Price, ½ lb., 75c.; lb. \$2.00;

some, large ovoid roots. Price, ½ 1b., 75c.; 1b. \$2.00; 10 lbs., at \$1.90 lb.

Golden Tankard Flesh yellow, thus differing from other varieties; sheep prefer it; heavy yielder. Price, ½ lb., 75c.; lb., \$2.00; 10 lbs. at \$1.90 lb.

Long Red. Largely grown; large roots of excellent quality. Price, ½ lb., 75c.; lb., \$2.00; 10 lbs. at \$1.90 lb.

Long Yellow. Differs from the Long Red only in color. Price, ½ lb., 75c.; lb., \$2.00; 10 lbs., at \$1.90 lb.

Yellow Globe. Large globular roots; good keeper. Price, ½ lb., 75c.; lb., \$2.00; 10 lbs. at \$1.90 lb.

NEW HALF SUGAR MANGEL.

As seed of the different varieties of sugar beet is almost un-procurable this season, we would recommend planting for stock feeding the improved breed of New Sugar Mangel offered below. This is distinctly a new variety of Mangel, and is the result of careful interbreeding between White Sugar Beet and Colossal Long Red Mangel. It certainly approaches nearer to a Sugar Beet than any other known variety of Mangel, to a Sugar Beet than any other known variety of Mangel, and by analysis it has been shown that it is very rich in saccharine matter. Its growth is very rapid, so that it matures much more quickly than other varietes, and on that account it may be sown at a later date. The bulb is very uniform, of good shape, and has a single taproot. When singling it may be left much more closer in the rows, than larger growing Mangels, and it will yield remarkably heavy crops. Half Sugar Red, per ½|bo, 75c.;|bo, \$2.00; 10 lbs., \$1.90 lb. Half Sugar White, per ½|bo, 75c.;|b., \$2.00; 10 lbs., \$1.90 lb.

RUTA BAGA, RUSSIAN OR SWEDISH TURNIPS RUTA BAGA, RUSSIAN OR SWEDISH TURNIPS
The Ruta Baga is important for stock feeding purposes
and can be sown quite late. It grows very rapidly and
yields from 25 to 35 tons per acre, in good rich deep soil,
with proper cultivation. The Ruta Baga proper should be
sown in this latitude from May 25 to June 25. If sown
then, it should be in rows, 30 inches apart, and the plants
thinned with a hoe to 12 or 14 inches apart, but if sown a
month later, the distances between the rows and between

month later, the distances between the rows and between the plants may be 8 inches. Sow 2 or 3 lbs. per acre.

Long Island Improved Purple-Top. It is perfectly hardy, and produces almost twice the weight per acre of any other variety. \$3.00 per lb.

Improved American (Purple-Top.) Very hardy and productive; flesh yellow, solid, sweet and fine-flavored; equally good for stock or table use. \$2.50 perlb.

Large White French. Flesh firm, white and solid; large

size, and has a very rich flavor. \$2.50 per lb.

MILLET FOR SUMMER SOWING.

Millets are valuable as "catch" or "stolen" crops, especially in seasons when the hay crop is short. They are annuals and grow rapidly, usually being ready for cutting in six weeks from seed sowing. They withstand severe droughts, weeks from seed sowing. They withstand severe droughts, when other crops are parched up. If cut when in blossom, millets cure into excellent hay; if allowed to ripen they become too woody. Sow from May 1st to August 1st.

Hungarian Millet. Is the quickest of catch crops for

hay, and may be sown any time up to middle of August; it is invaluable for overcoming a shortage of the regular hay crop. Many farmers now occupy their land with other crops, and for their hay depend entirely on Hungarian Grass, which they can sow after other crops have been harvested. Sow 1 bushel per acre. Price \$6.00 bushel of 48 lbs.; 10 bushels and upwards, \$5.90.

Golden Millet. This variety is considerably larger than Hungarian and yields a much heavier crop, but is later

and not so quick growing, consequently cannot be sown after the fourth of July in this latitude. Our seed is specially selected. Sow one bushel peracre. \$6.00 bushel of 50 lbs.; 10-bushels and upwards, \$5.90 bush. (See engraving.)

Japanese Millet. Entirely distinct from any other Millet.

grows 6 to 8 feet high and produces an enormous crop, yielding 10 to 12 tons green fodder per acre. When cured it

makes excellent hay, and is much relished by all kinds of stock, whether green or cured. Cure as you would a heavy crop of clover. This Millet does not endure drought well, but north of Washington we confidently recommend its general cultivation.

Sow from the middle of May to the 1st of July, broadcast at the rate of 15 lbs. per acre, but it is better to sow it in drills, 12 to 18 inches apart, using 10 to 12 lbs. per acre, and hood between the rows to keep down all weeds, until the plant attains a height of 12 to 18 inches, when its rapid growth will smother all weeds. Price, 15c. lb., 10 lbs. \$1.20, 100 lbs. \$10.00.

SAND OR WINTER VETCH. Vicia Villosa. Is perfectly hardy, remaining green all winter. It should be sown during August and September, mixed with Rye, which serves as a support for the plants, or in Spring with Oats or Barley. It grows to a height of 4 to 5 feet and is the earliest crop

It grows to a height of 4 to 5 feet and is the earliest crop for cutting, being a month earlier than Scarlet Clover, and a full crop can be taken off the land in time for planting Spring crops. It is exceedingly nutritious, and may be fed with safety to all kinds of stock.

Sow one bushel per acre with one-half bushel of Rye or Wheat. Price, 40c. lb., \$21.75 bushel of 60 lbs. 100 lbs. \$35.00.

JAPANESE BUCKWHEAT.

JAPANESE BUCKWHEAT.

Introduced into cultivation by us in 1887. Japanese has superseded all others and is now almost universally grown in preference to the common black and Silver Hull varieties. Flour made from it is greater in quantity and equal in quality, if not superior to that of any other Buckwheat. It ripens a week earlier than Silver Hull and yields two or three times as much. Price, \$1.25 a peck, \$4.00 per bushel of 48 lbs., 10 bushel lots, \$3.90 per bushel.

HENDERSON'S RECLEANED SCARLET CLOVER FOR SUMMER SOWING All lands from which crops have been harvested during the Summer and Fall should be sown with Scarlet Clover,

plowing under the following Spring. Authorities who have made a careful estimate, state that plowing under a good crop of Scarlet Clover is equivalent to 20 tons of stable manure per acre.

It may be sown among corn, tomatoes, turnips, etc., at time of last hoeing, or after potatoes, melons, cucumbers have been harvested, or on grain stubble and harrowed in. When sown in July and early in August, it has proved hardy as far North as Michigan and Canada. In the latitude of New York, time of sowing may extend from July 15 to September 1st, and further South even later. Sow 15 lbs. per acre. Price, choice recleaned highest quality, new crop seed 35c. lb., \$18.75 bush. of 60 lbs.; \$30.00 per 100 lbs.

HENDERSON'S
SPECIAL
GRASS SEED
MIXTURE
FOR HAY
AND
PERMANENT
PASTURE

The fall season is especially favorable to the growth of young grass, for at that season the seeds have the benefit of thoroughly warmed ground and a copious rainfall, which hastens germination and enables the grass to become firmly established before winter sets in. Then, on the opening of spring, the grass immediately recommences its growth and taking full possession of the ground, prevents weeds from obtaining a foothold.

Henderson's Special Grass Seed Mixture PERMANENT PASTURE.

It Produces Wonderful Hay Crops and Luxuriant Pasture Maintaining Its Cropping Qualities Twenty Years or More.

This famous mixture has seeded thousands of acres of meadow and pasture land for progressive farmers and stock raisers in various parts of the United States, with most gratifying results. It is a well-balanced combination of a number of native and acclimated foreign Grasses and Clovers, blended and improved upon during exhaustive trials under widely varied conditions, soils and localities for several years, until practically perfect, our aim being to produce, under the extremes of the American climate of heat, drought and cold, a PERMANENT, dense and deep-rooting turf that would yield year after year the maximum quantity of forage. These Grasses are of superior quality, inviting, sweet and nourishing, whether used as hay or pasture. That we have been successful is attested by the numerous letters of praise for these special Grass mixtures that we have received from the users, and the tributes to their merits published in many of the agricultural journals. See Henderson's Farmer's Manual for testimonials. It is sent post free on request.

In preparing these mixtures the greatest care is exercised in selecting such varieties as are suited to the soil to be sown, and to realize the object in view. Therefore a description of the soil and climate, and the purpose for which sown, and if with or without a grain crop, should accompany each order. Sow 3 bushels per acre. Full directions for sowing enclosed in every bag. (See engraving.)

Price (purchaser paying carriage), \$2.75 per bu. of 14 lbs.; 50-bu. lots, \$2.65 per bu.; 100-bu. lots, \$2.60 per bu.

WE ALSO OFFER

Henderson's Special Grass Mixture for Permanent Pasture Henderson's Special Grass Mixture for Permanent Hay Henderson's Renovating Mixture for Improving Old Pastures

Henderson's Special Grass Mixture for Woodland Pastures Sow 3 bushels per acre

Price (purchaser paying carriage), \$2.75 per bu. of 14 lbs.; 50-bu. lots, \$2.65 per bu.; 100-bu. lots, \$2.60 per bu.

REGARDING CLOVERS.

Do not omit to sow Clovers with the Grasses, as they add to the yield of hay and pasture, and by their ability to collect atmospheric nitrogen and store it in the root nodules, assist the growth of the Grasses and are of considerable benefit to subsequent crops.

Mixed Permanent Clovers, on account of their greater weight, should be sown separately, but at the same time as the Grasses. This Mixed Clover comprises White, Mammoth Perennial or Cow Grass, Alsike, etc. Sow 10 pounds per acre. Price, 55c. per lb.; 101bs., \$5.25; 1001bs., \$5.0.00.

Henderson's Northern Grown Alfalfa Seed.

ALFALFA, or LUCERNE. (Medicago sativa.) A Clover-like leguminous plant of great importance as a hay and forage crop, nutritious and rich in protein elements. It grows 2 to 5 feet high and sends roots 5, 10, 20, and sometimes 30 feet into the subsoil. It needs one season to become established, after which it yields enormous crops annually for many years. 3 or 4 cuttings per season, aggregating 4 to 6 tons cured hay per acre, are harvested, according to conditions and locality. It does well on all good rich soils (except heavy clay), if well drained, or overlying a permeable subsoil; on calcareous soil it thrives especially well. Sow in the Northern States during June, July or August, 30 to 40 lbs. of seed per acre if broadcasted, or 25 to 30 lbs. if drilled. In the South sow in February or September. Price, 35c. lb.; \$18.75 bushel of 60 lbs.; \$30.00, 100 lbs.

THE HENDERSON SELF-ADJUSTING LAWN MOWER.

THE KING OF LAWN MOWERS. LIGHT RUNNING. NOISELESS — DURABLE.

SELF ADJUSTING, DRAW CUT. ALWAYS SHARP. DOES NOT PULL THE GRASS. Leaves the Lawn Smooth and Free from Corrugation.

THE HENDERSON BALL-BEARING LAWN MOWER is made without regard to cost-to be the best, most durable, and the easiest-working Mower on the market, and while the prices are necessarily a little higher than those of Mowers simply made to sell, yet in the end our Mower will prove much cheaper, aside from annoying delays and repairs

experienced with cheap Mowers. THE HENDERSON BALL-BEARING MOWER has high drive wheels, large, open non-clogging cylinder. The spiral

Henderson's Border and Terrace Mower.

Especially designed to cut the grass on borders—the narrow strips of sod sometimes only a few inches wide—between flower beds and walks where a side-wheel mower would have one wheel down in the gutter, and in consequence the mower would cut into the sod. In our Border Mower a large light cylinder extends the full width of the mower and keeps the machine level with the surface and does perfect work. This machine level with the surface and does perfect work. This machine is also useful for regular lawn work. It is very light running, and will give thorough satisfaction.

The Philadelphia "All-Steel" Lawn Mower.

This all-steel, Style A, Philadelphia mower is about the last word in lawn mower construction. The frame, being made of steel in place of cast iron, is much lighter, stronger and not liable to break any place. The drive wheels, 10 in. in diameter, gives great traction power and spin the 4-bladed revolving cutter with great speed, thus leaving a smoothly cut surface. The train of three gears keeps the cutters down to their work and prevents "bobbing up" in high grass.

Excelsior Roller Lawn Mower

An old reliable lawn mower for those preferring a roller mower which, of course has some advantages over side-wheel mowers, as in mowing new lawns where the ground is still soft and impressionable, cutting narrow borders, where a side-wheel machine will run off the edge, rolling down worm casts, ant hills, etc.; but to offset these merits, roller mowers do push a little harder. Excelsior Roller Mowers are durably made with best crucible steel knives and the adjust-ments are simple and with the 4-bladed revolving cutter is adapted for all lawn cutting. The 6-bladed cutter is for extra fine work and for golf courses, tennis courts, etc., but runs harder.

If 6-bladed cutter is desired, include \$2.00 extra any size; Grass Catcher and Deflector \$3.00 extra, any size.

The New Improved Henderson Horse Lawn Mower.

IT IS A HORSE LAWN MOWER AND ROLLER COMBINED

We consider this to be the best horse power Lawn Mower on the market. It is simple in construction and very durable, the best steel and iron being used in its manufacture, and it is finished in the most perfect manner.

best steel and iron being used in its manufacture, and it is finished in the most perfect manner.

A lever beside the driver enables him to cut grass any height, high or low from the ground and to easily and quickly raise the blades over stones or other obstruction without stopping the horse or leaving his seat. A slight movement of a small lever throws the mower in or out of gear without stopping. The side draft rod is attached to the left side of the mower keeping the horse on the cut grass, and preventing the trampling down of the grass which is to be cut. The revolving knives, five in number, are "high speeded," making a continuous cut and leaving the surface of the lawn as smooth as velvet. The rollers, three in number, 15 inches in diameter, with triple pawls in each roll make the most powerful and instantaneous drawing mechanism ever put in a lawn mower. This feature maintains the motion of the blades even when turning sharp corners, a great advantage over other double roll mowers whose knives have no motion when turning corners. The self-aligning journal boxes are a very valuable improvement and prevent gramping of the journals, a very compound dangerous fault in many horse mowers. The valuable improvement and prevent cramping of the journals, a very common and dangerous fault in many horse mowers. These mowers will weigh, including shafts and driver, 600 to 700 pounds, thereby rolling the lawn at the same time it is cutting; or the cutter may be thrown out of gear, and the machine used for rolling alone.

Prices for the New Improved Henderson Horse Lawn Mower and Roller combined, complete with Tool Box, Seat, Shafts,

and side Draft Attachment: 30-inch cut, net weight 485 lbs., packed weight 625 lbs... 35-inch cut, net weight 505 lbs., packed weight 665 lbs... 40-inch cut, net weight 520 lbs., packed weight 695 lbs...

HENDERSON'S IMPROVED HORSE BOOTS.

Prevent horses' hoofs from cutting into soft lawns. Made of superior leather with improved double thick riveted soles and strap around the hoof. In ordering send outline of hoof. Per set of four, \$15.00.

THE UNIVERSAL LAWN TRIMMER.

The latest and best machine for trimming grass close up to the fence or wall, thus reducing hand work with shears to a minimum. It will also be found handy for trimming up around trees, under bushes, etc. It cuts 6 inches in width. This Lawn Trimmer is a high-grade machine in every respect with self-adjusting ball bearings. Price, \$6.50.

THE PENNSYLVANIA ROTARY LAWN RAKE.

This is virtually a revolving lawn comb, having flexible steel wire teeth which go between the blades of grass and comb out all dead grass, crab grass, leaves, sticks and other rubbish. It leaves the grass standing upright. The action of the three revolving rakes raises up the creeping crab grass and other low growing weeds so the lawn mower can cut them before going to seed, thus effectually ridding the lawn of annual weeds. It has a dumpable collecting box. Price, 24-in. machine, \$24.00; 36 in. \$35.00.

THE MOST BEAUTIFUL LAWNS IN AMERICA ARE MADE BY SOWING THE "HENDERSON" LAWN GRASS SEED,

THE "HENDERSON" LAWN GRASS SEED produces a perfect and enduring lawn of luxuriant richness, with closely interwoven, firm, elastic turf, and is often "ready for mowing four weeks from sowing." This celebrated Lawn Grass is composed of fine -leaved deep-rooting grasses

brated Lawn Grass is composed of fine -leaved deep-rooting grasses of interweaving habit, that flourish under our varied conditions, so that a deep green, smooth, and velvety sward, free from clumps, is maintained from snow to snow, vear after year, and without burning brown in summer. THE QUANTITY REQUIRED for making new lawns is 5 bushels per acre, or for renovating old lawns, I to 2 bushels. For a plot 15x20, or 300 square feet, 1 quart is required for new, or 1 pint for renovating old lawns. Full instructions in every package and bag.

Price of the "Henderson" Lawn Grass Seed, delivered free in the U.S., 30c. quart; \$1.00 for 4 quarts; \$1.75 peck; \$6.00 per bushel of 20 lbs.

The McIntosh Lawn Cultivator.

A new and splendid invention for improving and repairing lawns, putting greens, grass tennis courts, etc. It pushes as easily as a lawn mower, cutting narrow almost invisible grooves in the turf $\frac{3}{4}$ of an inch apart (or by removing every other knife $\frac{1}{4}$ inches apart) and $\frac{3}{4}$ to 2 inches deep as set over a 12-inch strip as fast as a man can walk. This enables seed broadcasted either before or after it to be brushed or rolled in to the loosened soil in the grooves where the grass can germinate and get a root soil in the grooves where the grass can germinate and get a root hold and not be dried out, washed or blown away as too often is the case when grass seed is merely broadcasted over a non-scarified turf. There are 16 knives, 5½ inches long made of the finest Sheffield steel. They are perfectly straight, easily removed for sharpening and adjustable to take up the wear until only 2 or 3 inches long when they may be quickly replaced by a new set. These knives slant backwards making a draw cut which does not disturb thin sod nor tear it up and expose the roots as often happens when a scarifying rake is used.

It is not necessary to cut into the turf deeply, just enough pressure should be given to cut through the grass mat. Price \$25.00.

"Please send at once one more McIntosh Lawn Cultivator. Have used the one purchased this spring with great success and think they are indispensible for use on lawns and greens."

BERT KROOSTAD,

Professional, Bridgewater Golf Club, Chicago, Ill.

THE HENDERSON PATENT WATER BALLAST ROLLER

or in early spring when the ground is moist, or after a rain spell, a lighter-weight roller is a necessity; then on thick sward or on hard soil. on walks and roads, a heavy roller is needed. With a **Henderson Water Ballast Roller** one can secure any weight desired between minimum and maximum, by simply removing a thumb-cap from each end and filing the two hollow sections with as much water or sand as may be needed, which is easily

nling the two hollow sections with as much water or sand as may be needed, which is easily and quickly done with a hose or through a funnel; and the roller isas quickly emptied. The inside being heavily galvanized, it will last for years. These are perfect rollers, and do perfect work on lawns, tennis courts, golf grounds, roads, walks, etc.

The Henderson Patent Water Ballast Roller, for man power. Weighs 300 lbs.; loads up to 600 lbs.; tracks, 24 inches, diameter of drums, 24 inches; counterbalanced handle, stands erect when not in use. Price, \$45,00.

The Skinner "Lawn Mist" Irrigator.

THE SKINNER "LAWN MIST" IRRIGATOR.

This is virtually the famous "Skinner Irrigation System" on wheels. It is therefore portable and may be placed and moved anywhere on the lawn or in the garden where it can be connected to the garden hose. It waters a large area with but little attention and the water is distributed evenly and but little attention and the water is distributed evenly and specified about every three feet apart, clusters of small spray nozzles so arranged that the distribution of water is entirely uniform the entire length of the pipe—and over a width of from 16 to 20 feet according to the volume and pressure of the water supply. A ing to the volume and pressure of the water supply. A 12 foot section of pipe is fitted to 5 sets of nozzles, an 18 foot section to 6 sets of spraying nozzles. A 15 foot length operating under a 30 lb. pressure will distribute about 5 gallons of water per minute, other lengths in proportion. The Skinner "Lawn Mist" Irrigator works best with a water pressure of "Lawn Mist Irrigator works best with a water pressure of 30 lbs. or more though very satisfactory results are given with pressure aslow as 20 lbs. Each section is fitted to a neat 2-wheel truck at one end and a shoe runner at the opposite end. Coupled for 34 hose. Price, per 15 foot section, \$13.50; 18 foot section, \$15.00. Flexible coupling to connect two sections, 75c. each.

The Kinney Liquid Manure Pump.

For applying liquid manure these pumps have no equal. Being made entirely of brass and nickel plated, they are not corroded by chemicals and do not wear out. The water pressure does the pumping and the flow of liquid fertilizer through the hose, is even and continuous as long as liquid is reasonably clear. It will apply from 5 to 15 gallons of liquid fertilizer a minute without waste. You screw the pump to the faucet, put the end of the suction hose into a barrel or tank of clear liquid manure, attach the three-fourths inch discharge hose, open the faucet, and go to the end of the hose. The liquid manure follows, and will keep coming until the supply is exhausted. Price, \$2.00. (Add extra for Parcel Post; weight, 1 %)

HENDERSON'S 4- AND 8-ARM SPRINKLER

HENDERSON'S 4-ARM and 8-ARM LAWN SPRINKLERS.

This is the best lawn sprinkler made. It can be attached to hose and placed anywhere on the lawn where it serves the double purpose of a beautiful fountain and of thoroughly saturating the grass or garden. The water is distributed in fine drops over an area of 60 to 100 feet in circumference, according to the water pressure. An ornamental standard, about four feet high, is surmounted with long perforated arms, which revolve, so the beautiful sprays are constantly changing. (See engraving.)

Prices, 4-arm sprinkler, \$4.00; 8-arm, \$4.50;

Ball and Basket Attachment, extra, \$4.00. This fits on the top of the Henderson sprinkler and the stream of water keeps the silvered ball dancing on its summit up in the air. When the ball falls the basket catches it, and it rolls into the center and is again raised by the water.

The "Water Witch" Lawn Sprinklers.

An effective device for sprinkling lawns, gardens or flower beds. The water is divided and deflected by the two lips of the swivel piece,

which causes it to revolve rapidly scattering drops and even-

ly over a circular area of 25 to 40 feet diameter. It works more satisfactorily with a very low pressure of water than any sprinkler we know of. (See engraving.)

Price, without stand, (i.e., with spur to stick in the ground, 50c. each; (Add extra for Parcel Post: weight 1 lb.).

Price, with stand, \$1.20 each. (Add extra for Parcel Post weight

The "Shower" Lawn Sprinkler.

It is very simple—no parts to revolve, squeak, clog, wear or get It is very simple—no parts to revolve, squeak, clog, wear or get out of order. It is a round box-like affair—about 3 in. in diameter by 1 in. in depth with a turbine arrangement inside which gives the water passing through a swirl causing it to pass through the single opening and be distributed in a fine rain over a circular area 25 feet or more in diameter according to the water pressure. (See engraving.)

Price, on stand \$2.75 (mail weight 4 lb.); without stand, to be used as a nozzle, \$1.25 (mail weight 1 lb.).

WATER WITCH SPRINKLER ON SPUR.

THE SUNSET SPRINKLER.

CAMPBELL AUTOMATIC LAWN SPRINKLER

"Columbia" Three-Arm Lawn Sprinkler.

This fills the want for a low-priced arm Sprinkler; it is compactly and strongly made with phosphor-bronze bearing and will cover a space 48 feet in diameter with suitable pressure of water. The top and arms are brass, stand and legs of iron handsomely japanned. The water flows freely through an unobstructed channel—it stands 12 inches high. (See engraving.)

Price, \$1.60 P. P. 3 1b.

Campbell Automatic Sprinkler

is constructed of brass, with the exception of the ball bearings which are

of bell metal and bronze.

The machine has two discharge tubes, and the water being forced under pressure from the stand pipe through the sprinkler is projected a great distance in a circle of 50 to 60 feet in diameter. (See engraving.)

Price, \$3.50.

The Turbo Irrigator.

This sprinkler, mounted on its tripod, may be placed anywhere and coupled to garden hose. Will water a circle of 50 to 100 feet in diameter, according to the water pressure.

A single stream, broken into a rain of drops and spray is thrown from the nozzle, so that every portion of the ground covered is thoroughly and evenly watered from center to circumference. (See

engraving.)
Price, \$15.00.

TURBO RRIGATOR.

Electric Garden Hose.

Electric Garden Hose isn't a "duck wrapped" hose, but built up from the inside to the wrapper in such a way as to insure maximum service. tric Hose will not burst, crack or split. Is made of seamless seine twine jack-ets and rubber tubes. Prices including couplings. (See engraving.)

"EL-FLO" HOME CANNING OUTFITS.

reserve the Surplus Products of Your Garden in Half the Usual Time.

Every home should possess a canning outfit, it means the preservation of surplus vegetables and fruits for winter use, that otherwise go to waste. With an "El-Flo" outfit, canning is a work of pleasure and is accomplished in half the time. A 50c. Book of Instructions, with proper receipts for canning vegetables and fruits furnished free with every canner.

14 inches wide by 12 inches high, with accessories for canning in tin or glass; holds 14 No. 3 (1-lb.) cans or 7 quart jars. May be used on any coal or wood cook stove. Capacity, 80 to 150 cans or 93 quart glass jars per day; weight, 15 lbs. (See engraving.) Price, \$5.25.

"El-Flo" Two-Hole Kitchen Canner,
No. 24. Nearly double the capacity
of the above. Oblong boiler 19x14
inches by 12 inches high. May be
used on any coal or wood cook
stove. The No. 24 holds 24 No. 3
cans, or 12 quart glass jars.
Capacity, 125 to 200 cans or 160
glass quarts per day; weight, 20
lbs. Price, complete, with all accessories for canning in tin or glass,
\$6.00. \$6.00.

"El-Flo" Large Family Outdoor Can-ner, No. 30. A complete canner with firebox that burns either coal with hrebox that burns either coal or wood, and can be placed anywhere outdoors. The oblong boiler measuring 14 x 23 inches by 23 inches high; holds 30 No. 3 (1-lb.)
Will put up 400 to 600 No. 3 cans or Furnished complete with all accessories in tins or glass, and with two joints of

tins or 15 glass quart jars.

594 glass quarts per day.

Furnished complete
for canning in tins or glass, and
pipe; weight, 55 lbs.

Price, \$16.00.

The solution to sealing problems. To the defective sealing by improperly heated tools is attributed the greater per cent. of loss in canned goods—thus the everready, evenly heated capping steel will in-

sure you against chance. Five cents worth of gasoline will run the EL-FLO heater a whole day—sealing more than 1.000 cans—limited only by the speed of the operator.

A blue flame plays continuously on the steel, keeping a nice uniform heat the whole day through. It is light, neatly finished, compact, convenient and never requires any "tinning" or "fluxing". Perfectly safe, and is as simple and easily operated as a lamp. No experience whatever is needed

to do perfect and rapid sealing from the beginning. Three styles and made in all sizes. The heat is applied on either side, top or interior of steel.

EL-FLO continuous Heater, with cap-ping steel "tinned," key and pump, any

size. \$5.00.

BUTLER STEEL HAND CART WITH BOX AND HOPPER.

EL FLO CAPPING STEEL.

The Butler Steel Hand Cart is of unlimited usefulness. Built low down, it is easily loaded and unloaded with

Darrels, cans, baskets, stones etc.

The box is detachable. The cart turns clear over for dumping load if desired. Wheels 36 inches high; from out to out of hubs, 42 in. Platform 28x32 in. Box boards 15 in. high. Flaring Hopper 12 in. above box makes and Flaring Hopper, \$21.50. With detachable Box boards, \$16.50. With detachable Boxboards

Wheels with 3-in. tire, \$3.50 extra).

Fruit, Wine and Jelly Press.

rehandling, as it extracts the juice and ejects the skins and seeds in one operation; it can be used for many purposes, in cluding the making of wine, jellies, fruit butters from grapes, currants, quinces pineapples, tomato catsup, etc.

See article "Canning Vegetables" in Henderson's Garden Guide and Record, free with orders of \$2.00 or over.

HENDERSON'S "MAN-SIZE"

WATER BARREL TRUCKS

AND ACCESSORIES.

The Barrel, capacity about 50 gallons, is raised from the ground, carried to the place desired, and can be readily disconnected from or attached to the truck while barrel is either full or empty.

We supply as extra attachments the following: A Box with trunnions and spring catch, making a very superior dumping Hand-cart. A Sprinkler, invaluable for watering lawns and sprinkling walks (water is turned on and off by hand wheel and ball valve.) A Leaf Rack, very useful for removing leaves and litter. A Force Pump for spraying, etc. (For a Spray Pump we recommend our "Fruitall" offered on this page.)

Henderson's "FRUITALL" SPRAY PUMP.

FOULTALL STRAI FOMP.

For spraying fruit, ornamental and shade trees, vines, grapes, etc. It has all working parts of brass, and can be mounted on or removed from barrel or tank by the simple adjustment of two thumb-screws. The pump is easily operated by a single person. The Paddle Agitator is mechanical in its action and much superior to the old method of "return discharge." Prices (For Barrels and Trucks, see above). —Henderson's "Fruitall" Pump only (with Agitator) \$11.00; with barrel, \$15.00; Henderson's "Fruitall" Pump, Outfit "A," single spray, pump with one lead 15ft. ½ in. discharge hose, with "Vermorel" Spray Nozzle and Agitator, \$14.00; or with barrel, \$18.00. Extras for Tall Tree Spraying.—The following are adaptable for any of our Spray Pumps—Iron Extension Rods, 8 feet long with shut-off cock at base fitted to attach hose at bottom and nozzle at top, \$2.75 each; brass shut-off or I lead, \$1.35 extra; for 2 leads, \$1.60 extra.—Spray Hose, ½-inch, 12c. per foot. Couplings, extra, 25c. per set.

The Asbestos Torch.—If passed quickly along the branches the heat instantly destroys the nests and insects and will in no way injure the tree. Price, 40c. each (mail weight 1 lb.)

Solid Brass Compressed Air Atomizer.—Delivers a continuous fog-like spray. Is fitted with straight and adjustable nozzles, making a perfect under leaf sprayer, and holds 1 quart. Price, \$2.25 (mail weight 2 lbs.)

Henderson's Sheet Brass Vaporizing Sprayer.—Sprays fluids in the form of mist. The tapering point to the air-chamber gives great force to the spray. Holds one quart. Price, \$1.65 (mail weight 3 lbs.)

THE "SUCCESS" KNAPSACK SPRAYER

and Bucket Sprayer Combined.

Is used for applying Bordeaux Mixture and other fluid remedies in a mist-like spray, for the prevention and cure of mildew, black rot, potato blight and kindred diseases; with it a man can spray five to six acres of vines in a day. The machines are made entirely of copper and brass, and the chemicals will not corrode or rust them. Price, complete, \$25.00.

THE "HENDERSON" HAND BUCKET PUMP.

This is the best and most durable portable hand pump in the market. Working parts are made of solid brass with large air chamber, and is double acting, throwing an absolutely continuous stream, either solid or in a fine spray as desired. Very light and easily carried, and works Just the thing for throwing liquid

from any bucket or tub. Just the thing for throwing liquid insecticides and fungicides on low trees, shrubs, plants, etc., and by altering the nozzle it can be used for washing carriages, windows, etc. Price, with 3 feet of hose and combination spray and stream nozzle, \$5.75; or with extra 7-foot section of hose and pole connection for tree spraying, \$7.00.

Leggett's Champion Powder Gun.—Blows all dry powders, such as Paris Green, Persian powder, etc., over plants and into trees, for the killing of insects and fungus. It will cover a given area with a cloud of powder, and use less than any other contrivance. Weight 5 pounds, is easily carried and is operated by turning a little crank. Price, complete, \$12.75.

Jumbo Powder Gun.—For applying insect powders; it holds about 4 oz. of powder, which is ejected and distributed by pressure with the thumb. Price, 35c. each.

Woodason's Double Cone Dry Powder Bellows.—This double cone bellows can be held in any direction without wasting powder, as it regulates its own supply. It dusts under the leaves as well as on top. Price, \$4.50.

Woodason's Single Cone Dry Powder Bellows.—Price, large size, \$3.00; small size (for conservatory and house use), \$1.75.

Norton's Plant Duster.—For dusting potatoes, vines, etc.
The guard prevents the powder from escaping beyond the plant being treated. Price, \$1.50 each.

Prices of Implements, Fertilizers, Insecticides, etc., are subject to change without

notice.

REMEDIES FOR INSECTS AND FUNGUS CONTACT AND

Insects that Suck the Juices from Plants, Foliage, etc., such as lice, green, black and white aphis or fly, mealy bug, red Insects that Suck the Juices from Plants, Foliage, etc., such as lice, green, black and white aphis or fly, mealy bug, red spider and scale, thrust their proboscis into the leaf or stem, and are not affected by stomach poisons; so they must be destroyed by contact insecticides. Those in powder form kill by closing the breathing pores in the insect's skin; or in fluid form by being absorbed through these pores. The best contact insecticides in powder form are Bug Death, Hellebore, Slug Shot and Tobacco Dust. The best in fluid form are Aphine, Black Leaf 40, Fish (Whale) Oil Soap, Nicoteen (Tobacco Extract), Kerosene Miscible Oil and Lemon Oil.

Insects that Eat Plants, Foliage, Vegetables, Fruits Flowers, etc., whether bugs, beetles, worms, caterpillars or slugs, are more quickly and effectually destroyed with a poisonous stomachic insecticide such as Arsenate of Lead, Paris Green or Hellebore. These if applied according to directions are so diluted as to be harmless to vegetation and to animal life. Less poisonous stomachic and contact insecticide are Bug Death, Kerosene Emulsion, Slug Shot, etc.

PHINE. Very powerful, soluble in water applied as a spray, wash or dipping solution. It kills aphis, thrip, red spray, bug, scale. Price, 1 gill, 25c.; APHINE.

spray, wash or dipping solution. It kills aphis, thrip, red spider, slugs, ants, mealy bug, scale. Price, 1 gill, 25c.; ½ pint, 40c.; pint, 65c.; quart, \$1 00; gallon, \$2.50.

APHIS PUNK is a wood-pulp paper, in 6x33-inch sheets, saturated with 22½ per cent. nicotine, rolled and dried. When lighted it burns slowly and is a cleanly, convenient and effectual remedy for "smoking" conservatories, etc., for green and black fly thrip, etc. Price, per carton of 12 rolls, 60c. (mail wei3ht, 11b.); per case of 12 cartons, \$6.50.

ANT DESTROYER (non-poisonous), Designed Especially for Use on Lawns, Tennis Courts and Putting Greens. This product was used successively for two years on the grounds of one of the most famous Golf Clubs in America before being offered to the public. One quart, 60c.; one

grounds of one of the most ramous Goir Cities in America before being offered to the public. One quart, 60c.; one gallon, \$1.50; five-gallon can, \$7.00.

ANT-I-CIDE. A powder with a repellant odor, effective against ants and crawling insects that infest lawns. Strew so the surface infested will be thoroughly covered. One

so the surface infested will be thoroughly covered. One pound will dress about 300 square feet. Price, 1-lb. package, 25c.; 5-lb. bag, \$1.00; 25-lb. drum, \$4.50.

ARSENATE OF LEAD—PASTE. A poison taking the place of Paris Green. Its advantages are that it adheres to foliage, does not readily wash off by rain and does not injure tender foliage. It is white in color and shows just where it has been applied. Price, 1-lb. tin, 40c.; 5-lb. tin, \$1.75; 12½-lb. pail, \$3.50; 25-lb. bucket, \$6.50; 50-lb. bucket, \$12.50; 100-lb. keg, \$24.00.

ARSENATE OF LEAD, POWDERED. May be used either as a dust diluted with hydrated lime, plaster or road dust, or as a liquid spray with water, lime-sulphur, solution or

or as a liquid spray with water, lime-sulphur, solution or Bordeaux, only half the weight is needed as of the paste form. Price, 1 lb., 60c.; 5 lbs., \$2.75; 10 lbs., \$5.25;

form. Price, 1 1b., ouc., 5 10s., \$2.10, 25-lb., \$12.00.

"BLACK-LEAF 40." Very effective for sucking insects such as plant lice, red spider, leaf hopper, thrip, etc., sprayed on. Dilute 2 teaspoonfuls to a gallon of water. It also forms a splendid spray for both insects and fungus with Bordeaux. Price, 1-oz. bottle, 25c.; ½-lb. tin, 75c.; 2-lb. tin, \$2.50; 10-lb. can, \$10.75.

ORDEAUX & ARSENATE OF LEAD. A combination in proper proportions of these standard insecticide and fungicide remedies, killing insects and plant diseases at one spraying and in half the time required to spray on separately. Quantity required, 1 to 2 lbs. in 10 gallons water. Price, 1 lb., 35c.; 5 lbs., \$1.50; 10 lbs., \$2.75; 25 lbs., \$6.00; 50 lbs., \$11.00; 100-lb. keg, \$21.00. BORDEAUX & ARSENATE OF LEAD.

BORDEAUX—LIQUID. Ready for use by simply adding 1 part to 50 of water. An indispensable fungicide, curing and preventing black rot, mildew, blight, rust, scab, and all fungoid diseases on fruits and plants. Price, 1 pint, 30c.; 1 quart, 50c.; 1 gallon, \$1.25; 5 gallons, \$5.00.

BORDEAUX, POWDERED. Requires 1 to 1½ lbs. to 10 gallons of water as fungicide spray. Price, 1 lb. 45c.; 5 lbs., \$2.00; 10 lbs., \$3.50.

BOROWAX. A complete protection against tree borers. Use half to one pint to a tree according to size. Price, quart, 35c.; half gallon, 60c.; gallon can (boxed), \$1.00; 6 gallons (boxed), \$5.00; half-barrel, \$20.00; barrel, \$35.00.

BUG DEATH. A non-poisonous insect-killing powder, for worms, bugs and caterpillars. Apply with a duster, bellows or powder-gun, at the rate of about 12 lbs. per acre. Mail weight, 1½ lbs., per lb. Price 20c. per lb.; 3 lbs., 45c.; 5 lbs., 60c.; 12½ lbs., \$1.35; 100 lbs., \$9.25.

BUG SHAKER for applying above, 40c.

CATTLE COMFORT. Protects horses, cattle, dogs, etc., from flies, gnats, mosquitoes, horse-fly and other insects, is healing to sores, destroys head lice on fowl, etc. Price, 1 quart, 60c.; 1 gallon, \$1.75; 5 gallons, \$7.00.

COPPER SOLUTION, AMMONIATED. A fungicide, for spraying when fruits are nearing maturity, or plants in bloom. One quart is sufficient for 25 gallons of spray. Price, 1 quart, 90c.; 1 gallon, \$2.75.

CORN OIL—ANTI-CROW. Protects newly planted corn from crows. Keeps the birds from damaging your crops by preventive measures. Price, per pint, 25c.; per quart,

CUT WORM KILLER. It has an enticing odor and attracts worms. One pound is sufficient for 175 plants in hills, or

worms. One pound is sufficient for 175 plants in hills, or 100 feet when in rows. Price, 1-lb, sprinkler box, 25c. (mail weight 2 lbs.); 5-lb, tins, \$1.00 (mail weight, 6 lbs.); 25-lb, drum, \$4.00; 100-lb, bag, \$12.00.

FISH OIL SOAP. (Whale Oil Soap.) A wash for insects and eggs on the bark, and for smearing the trunks of trees to prevent worms from crawling up. Price, 25c. per lb. (mail weight 2 lbs.); 5 lbs., \$1.00 (mail weight 6 lbs.); 10 lbs., \$1.75; 25 lbs., \$4.00.

FORMALDEHYDE. A preventive of fungoid diseases as potato seab smust must corn damping of escellings.

potato scab, smuts, musty corn, damping off of seedlings, club root, etc. The dilution is 1 lb. (1 pint) to 15 or 20 gallons of water and 1 to 2 gallons of this dilution is required for the treatment of a bushel of seed. Price (40 volume %), 1-lb. bottle, 50c.; 5-lb. bottle, at 45c. lb.; 10-lb. bottle, at 40c. lb.; 50-lb. demijohn, at 32c. lb.; 132-lb. carboy, at 28c. lb.

FUNGINE. An effective sulphurated spraying remedy for mildew, rust and other blights. Does not stain the mildew, rust and other blights. Does not stain the foliage. Price, half pint, 40c.; pint, 65c.; quart, \$1.00;

HELLEBORE, Powdered White. Less poisonous than Paris Green and Arsenate of Lead, and safer to use when fruits or vegetables are nearly ripe. Can be used as a powder or Can be used as a powder or

or vegetables are nearly ripe. Can be used as a powder or dissolved, I ounce in 3 gallons of water. Price, 70c. per lb; 5 lbs., \$3.25 (mail weight, 1½ lbs. per lb.).

KEROSENE MISCIBLE OIL. Better than Kerosene Emulsion. Is especially valuable against all soft bodied insects. Can be used in place of Nicotine. Contains 80% Kerosene. Dilute I part Oil to 16 parts water. Tender plants I part to 36 parts water. Price, I pint, 30c.; I quart, 50c.; I gallon, \$1.25c.; 5 gallons, \$5.00.

LEMON OIL. Efficient for all sucking insects and soft scales. Apply as a spray or wash. Price, ½ pint, 30c.; 1 pint, 50c.; quart, 90c.; ½ gallon, \$1.50; I gallon, \$2.50.

LIME SULPHUR SOLUTION. For scale insects on trees and such fungus bark diseases as can be treated in winter.

and such fungus bark diseases as can be treated in winter. Diluted and apply with a spray pump while trees are dormant, in fall, winter or spring. Can be used strong during mid-winter, but earlier or later dilute it 1 gallon to 40 to 60 of water. Price, quart can, 45c.; gallon, 90c.; 5-gallon can, \$3.35; barrel of 50 gallons, \$15.00.

NICOTINE. A remedy for spraying, containing 30 per cent. nicotine. Dilute two teaspoonsful to a gallon of water.

nicotine. Dilute two teaspoonsful to a gallon of water. For furnigating greenhouses, etc., use a scant tablespoonful to 1½ pints of water, for each pan, vaporize by placing a hot iron in it. This is enough for 600 square feet of floor space. Price, 8-1b. bottle, \$10.00; 4-lb. bottle, \$5.00; 1-lb. bottle, \$1.50; ½-lb. bottle, \$5c.; 1½-oz. bottle, 40c. NICO-FUME. Suspended and lighted, it is the best method of furnitation encountering for each is read all ligeous that

of fumigating conservatories for aphis and all insects that

of fumigating conservatories for aphis and all insects that succumb to tobacco. One sheet is sufficient for 2000 cubic feet of space. Price, air-tight cans of two dozen sheets, 85c. (mail weight, 1lb.) 1 gross sheets, \$4.00 (mail weight, 4 lbs.); 2 gross sheets, \$7.50 (mail weight, 7lbs.).

PARIS GREEN. An insoluble, poisonous powder for potato bugs, codling moth, worms, caterpillars, slugs and bugs. Applied as a powder it should be mixed with plaster or flour, 100 parts to 1 part of Paris Green; in solution mix 1lb. in 200 to 300 gallons of water. Price, ½ lb., package, 40c.; 1-lb. package, 90c.; 5-lb. package, \$4.00.

PYROX. An insecticide and fungicide for eating insects, blights and fungus. Mix with water to apply. Price, 1-lb. bottle, 40c.; 5-lb. crock, \$1.50; 10-lb. crock, \$2.75; 25-lb. crock, \$6.00; 50-lb. keg, \$11.00; 100-lb. keg, \$21.00

SCALECIDE. CALECIDE. The best spray for San Jose scale, cottony maple scale, &c. It is not poisonous, being a preparation of petroleum that mixes with cold water and is ready to apply. I gallon to 20 gallons of water sprayed on trees and bushes will kill every scale that it reaches without injury to tree or fruit if applied while foliage is off. Price, I quart, 55c.; I-gallon can, \$1.35; 5-gallon can, \$5.75; 10-gallon can, \$9.85; 30-gallon barrel, \$22.00.

SCOTCH SOFT COAL SOOT. Used in onion drills, radish beds, cabbage grounds, etc., it checks the attacks of grubs or cut worms, and drives away insects that hide in the ground and lay their eggs near the roots. Price, 50-lb.

bag, \$2.75; 100-lb. bag, \$5.00

INSECTICIDES—Continued.

SLUG SHOT. A non-poisonous powder insecticide; it requires no mixing or preparation, easily applied and not injurious to the person applying it, or fruits and vegetables. Destroys potato bugs, beetles, green flies, slugs, worms, etc. Price, per keg of 125 lbs, net, \$11.25; per barrel of 250 lbs. net \$20.00; 10-lb, package, 95c. (mail weight, 1½ lbs. per lb.); 5-lb, package, 50c.; in tin canister with perforated top for applying, 35c. each (mail weight, 2 lbs.).

STICKY TREE CORD. Tack one end to the tree, pass around it and tack on every 18 inches. In the furrows of rough barked trees, it will prevent caterpillars, etc., from crawling up; lasts all summer. In tubes containing 30 feet. Price, 25c. or \$2.50 per doz. (mail weight, 1½ lbs. each.).

SULPHUR, FLOWERS OF. Price, 15c. per lb. (mail weight, 2 lbs.); 10 lbs., 90c.; 25 lbs. and over, at 9c. per lb. (mail weight, 1½ lbs. per lb.).

THYMO-CRESOL or ENGLISH COLD WATER SHEEP PIP. A gallon makes a hundred gallons for most uses. A world-famous dip, and remedy for wounds and skin diseases, killing animal parasites, mixing with whitewash for chickenhouses, kennels, etc. Price, quart can, 80c.; 1-gallon can, \$2.25; 5-gallon can, \$7.50.

TREE TANGLEFOOT. No crawling insect can pass a band of tree tanglefoot. Apply early in the spring—and again in the fall if troubled with the fall canker worm. One pound for 6-foot band 4 inches wide, 1 ½ inch thick. Price, 1-lb. can, 50c.; 3-lb. can, \$1.45; 10-lb. can, \$4.50; 20-lb. can, \$8.75. (mail weight, 1½ lbs. per lb.). TREE WOUND PAINT is an insurance against decay, having penetrating, antiseptic and elastic waterproofing qualities. Sun and rain cannot cause the coating to break from the treated wood. Price, quart, 60c.; gallon, \$1.50;

S gallons, \$7.00.

VERMINE. Kills underground insects. Use 1 part vermine to 400 parts water, thoroughly saturing the ground Price, gill 25c.; half pint, 40.; pint, 65c.; quart, \$1.00

gallon, \$3.00.

HENDERSON'S WORM-KILLING GRASS FOOD Stimulates the grass into rich green growth and quickly eliminates the earth or angle worms that burrow in the turf in unbelievable quantities. We advise all whose grass is not good to apply it at the rate of ½ pound to a square yard during rainy weather or else water in thoroughly with a hose. The worms will then come to the surface and die. It is a non-poisonous powder not injurious to animal life and can safely be applied at any season of the year. Use one pound for each two square yards.

Price of Henderson's Worm-Killing Grass Food (F.O.B.N.Y.): 5 lb, pkg (Mail wt. 6 lbs.) \$0.85 | 50 " bag ... \$4.00 | 10 " " (Mail wt.11 lbs.) 1.50 | 100 " " ... 7.00 | 25 " " ... 2.50

HENDERSON'S FLUID WEED DESTROYER

HENDERSON'S FLUID WEED DESTROYER

Destroys all weeds, on brick walks, roads etc. It is mixed with water and applied with a watering can or sprinkling cart. If the ground is dry it should first be sprinkled with water, so the Weed Destroyer will not soak away too quickly. Where large weeds and docks are to be destroyed chop off the tops first. Full directions for use with each package.

Quart Can. \$0.60
Gallon Can. 1.75
parts of water, 1 quart 5-Gallon Keg. 7.00 (Mot Mailable.)

"CLIMAX" LAWN SAND

A non-poisonous, dried chemical, which if evenly distributed 4 ounces per square yard kills weeds by adhering to their broad flat leaves, but falls clear to the roots of grass, and fertilizes the soil.

and fertilizes the soil.

It is marvelous how quickly the grass improves. Price, 3½ lbs., 75c. (Mail weight 4 lbs.); 7 lbs. \$1.35 (mail weight 8 lbs.); will dress about 25 square yards; 14 lbs., \$2.00. 28 lbs., \$3.50; 56 lbs., \$6.00; 1 cwt., \$10.00.

HENDERSON'S FERTILIZERS. CHANGE WITHOUT NOTICE.

BONE FERTILIZERS

Decompose slowly in the soil; form permanent improvement. With bone there is no danger of burning the plants. Excellent for top-dressing grass and for garden and field crops. Quantity Required. For leavns, pasture and mowing lands, ½ to 1 ton per acre. For trees and vines, 2 to 4 quarts each. For field and garden crops, ¾ to 1 ton broadcasted and harvowed in. For rose beds, pot plants, etc., one part to about fifty of soil. Raw Bone Meal. This is ground very fine, decomposes rapidly in the soil and is more quickly beneficial.

Raw Bone Meal. This is ground very line, decomposes rapidly in the soil and is more quickly beneficial.

Price, 1-lb. package, 15c. (mail weight 2 lbs.); 5-lb. package, 40c.; 10-lb. package, 75.; 25-lb. bag, \$1.50; 50-lb. bag, \$2.75; 100-lb. bag, \$4.50; per ton of 2,000 lbs., \$75.00. Raw Ground Bone. Particularly adapted for general

fertilizing; the finer particles are immediately beneficial.

Price, per 100-lb. bag, \$4.50; per ton of 2,000-lb., \$75.00.

BLOOD AND BONE

A very high grade fertilizer of exceptional value for garden crops, grasses, fruit trees, grape vines.

Quantity Required. When broadcasted use from ½ to 1 ton per acre. For garden crops drill in 300 to 500 lbs. per acre.

Price, per 100-lb. bag, \$4.50; per ton of 2,000 lbs., \$75.00.

IMPORTED ENGLISH FERTILIZERS.

Thomson's Vine, Plant and Vegetable Manure. Price, 28-lb. bag, \$3.00; 56-lb. bag, \$5.50; 112-lb. bag, \$10.00. Thomson's Special Chrysanthemum and Top-Dressing Manure, 28-lb. bag, \$4.25; 56-lb. bag, \$8.00.

HENDERSON'S GARDEN FERTILIZER.

Easily applied by sprinkling over the surface of the soil and raking in. Two or three additional applications, at intervals, will produce magnificent results. A 10-lb. package is sufficient for a space 15x20 ft. for one application, or 500 to 600

lbs. per acre. Instructions on each package.

Price, 5-lb. package, 40c.; (mail weight 6 lbs.) 10-lb. package
75c.; (mail weight 11 lbs.) 25-lb. bag, \$1.75; 50-lb. bag, \$2.75;
100-lb. bag, \$4.50; per ton, \$80.00.

HENDERSON'S HOUSE PLANT FERTILIZER

A safe, clean and high-grade fertilizer, free from disagreeable odor, prepared especially for feeding plants grown in pots. Detailed directions on each package.

Price, 12-oz. package, sufficient for 25 ordinary-sized plants for one year, 25c. (mail weight 1 lb.)

PURE ANIMAL MANURES

Quantiry Required. For garden and field crops, 1 to 2 tons per acre—//s before plowing, the balance before harrowing. For top-dressing, use 1 ton per acre in fall or early spring.

Sheep Manure Pulverized. Price, 50-1b. bag, \$2.00; 100-1b. bag, \$3.50; per ton of 2,000 lbs., \$60. in packages of 2 lbs., 20c. (mail weight 3 lbs.); 5 lbs., 40c.; (mail weight 6 lbs.) 10 lbs., 75c.

Horse Manure Dried. Price, per 100-lb. bag, \$3.00; per ton of 2,000 lbs., \$50.00.

Cattle Manure Dried. \$2.75 per 100-lb. bag; \$45.00 per ton. Ashes, Canada Hard Wood. Indispensable for all crops requiring potash; very beneficial for garden and field crops, grass lands and lawns. Apply 1 to 2 tons per acre.

Price, per 100-1b. bag. \$2.50; per bbl. of about 200 lbs., \$4.00; per ton of 2,000 lbs., in bbls., \$35.00.

requiring lime and sulphate; also good on grasslands and sour soils. Price, 100-lb. bag, \$1.50; \$25.00 per ton. Quantity required. One to two tons per acre.

HYDRATED LIME

HYDRATED LIME. Price, 100-lb. bag, \$1.35; per ton of 2,000 lb., \$20.00.

GROUND LIME STONE. Price, 100-lb. bag, \$1.00; \$15.00 per ton.

A SELECTED LIST FOR SUMMER SOWING, OF

Hardy gardening is becoming more popular in America every year. To meet the increasing demand for seeds of perennial plants we append a list of the leading sorts, which if sown this summer will produce plants that will flower next season. Biennials grow from seed one year, bloom and die the next. Perennials last for several years, blooming annually from seed after the first season. Cultural directions are printed on each packet.

SELECTED STRAINS OF PANSY SEEDS FOR FALL SOWING.

HENDERSON'S MAMMOTH BUTTERFLY PANSIES

Have been famous many years for their superior size, perfection of form, mavelous diversity of colorings, superb markings as well as for robust plant growth—deep rooting frost and heat resisting qualities and freedom of bloom. (See engraving). Mixed Colors, 15c. per pkt., 2 pkts. for 25c. 60c. per 1000 seeds.

HENDERSON'S GIANT RUFFLED PANSIES.

A remarkable strain of Giant Pansies, the flowers of which are so large and full that the broad petals seem to be "gathered" to the stem, causing them to be undulated and fluted from center to circumference, not unlike "frilled" velvet. They are nearly all five-blotched and contain rich combinations of coloring. Mixed Colors. Pkt. 15c. 2 pkts. for 25c. Per 1,000 seeds, 60c.

HENDERSON'S MAMMOTH PARISIAN PANSIES.

Distinguished by magnificent and varied colors and strong markings. There is usually a large "blotch" on each of the five petals, with a surrounding band of some strikingly contrasting color, over which is thrown a cobweb-like netting of yet another hue. The combinations are composed of chadge of circumpany violate capary or or green will be a contracted. of shades of cinnamon, violet, canary, orange-yellow, black, garnet, light blue, indigo, cream, etc. **Mixed Colors.** Pkt. 15c. 2 pkts. for 25c. Per 1,000 seeds, 60c.

HENDERSON'S GIANT MOTTLED PANSIES

The flowers well-grown measure 3 to 31/2 inches across and of most gorgeous effects, blotched, spotted, marbled, veined, striped and blended, colors passing through reds, rose, pink, white, purple in beautiful and indescribable variegation. Mixed Colors. Pkt., 15c. 2 pkts. for 25c. Per 1,000 seeds, 60c.

HENDERSON'S COLLECTION OF 12 GIANT PANSIES This collection contains one packet each of 12 large and beautiful Pansies. Price, 75c.

WORLD RECORD PANSIES. Hardy Early-Flowering.

This new race of pansies promises to be an important introduction on account of the extreme hardiness of the plants and in consequence their earliness in flowering. With plants and in consequence their earliness in flowering. With slight protection, such as meadow hay, straw or similar material, full grown plants winter over in the open ground—even in very cold latitudes—and commence flowering in early spring with the Snowdrop and Crocus, or from four to six weeks earlier than other pansies. In fact, we gathered flowers several times during the past winter by lifting the snow-covered hay. They are sweetly perfumed.

Pkt. Celestial Oueen. Bright sky-blue, tinted lavender.

New Giant Flowering Spencer Sweet Peas.

Bloom 4 Weeks Earlier than the Late Spencers, and Under Congenial Conditions Flower Continuously for 4 months.

The plants of this new race are of strong constitution, vigorous growth, profuse and bloom continuous for about four months, grown under congenial conditions. Grown in the months, grown under congenial conditions. Grown in the open ground they begin flowering in about 106 days from seed sowing or fully four weeks sooner than late flowering Sweet Peas sown at the same time, and they continue to flower in profusion for fully 4 months. It is predicted by Sweet Pea authorities that this race will supplant all other early and late flowering Sweet Peas for winter flowering under glass, and also for open ground culture in our Southern States--sown preferably in fall or winter. Condensed cultural instructions for both garden culture under northern and southern conditions and for winter flowering under glass are given in Henderson's leaflet "How to Grow Sweet Peas to Perfection" free to customers.

"YARRAWA."

This variety from Australia has proven its adaptability to American conditions. In our trials it commenced flowering freely two weeks before other large waved Sweet Peas and three to four weeks earlier than some varieties, all given the same cultural treatment, and "Yarrawa" continued in flower, holding its large size and phenomenal floriferousness for weeks after all other Sweet Peas had passed their best. The flowers are large of round waved Spencer form and colored bright rose pink with lighter pink wings... ed bright rose pink with lighter pink wings 15 1.00

Composed exclusively of Giant Waved Spencer varieties, blended in proper proportions of bright colors and including several new hybrids of exquisite colors and shades, many of which, when sufficiently trued up, will be introduced as new-named varieties. Price, per pkt, (75 to 100 seeds), 10c; three pkts., 25c.; per oz. (400 to 500 seeds), 20c.; per 1 lb., 60c., per lb., \$2.00

postpaid.

ANNOUNCEMENT

From present indications, due to war conditions, the chances of receiving any flowering bulbs from Europe this year are very remote. If we have assurance that they will arrive, we will issue our Autumn catalogue about Sept. 1st containing our offers of them. We can deliver all the Bulbs and Roots offered in this catalogue at the proper season for planting, as they are American grown.

If by Parcel Post add postage at Zone Rates on page 2 of cover. Weight 2 lbs. per doz. Single Bulbs mailed free.

Calla Aethopica, or Lily of the Nile. The old favorite White Calla Lily. We offer dry roots, as they are superior for winter-flowering. Extra large dormant roots, 30c. each, \$3.00 per doz.

The Godfrey Everblooming Calla. This new hybrid is a true ever-blooming variety. It produces quantities of large, snow-white, fragrant flowers. The plant is about 18 inches high.

30c. each, \$3.00 per doz.

Yellow Calla, Elliotianna. The finest yellow Calla; large rich golden flowers 4 to 5 inches across at the mouth; leaves spotted white. Dormant roots, 50c. each, \$5.00 per doz.

Spotted Leaf Calla. (Richardia Alba Maculata.)
Dark green leaves spotted with white; flowers similar to the old favorite white Calla, but smaller.
Large bulbs, 15c. each, \$1.50 per doz.

DIELYTRA, or "Bleeding Heart.

One of the most ornamental of hardy spring-flowering plants, with elegant green foliage and long drooping racemes of heart-shaped pink and white flowers. This is deemed one of the finest of all hardy garden plants. If potted in November, left outside till it has formed new roots and then brought into a gentle heat, it may be had in flower in the greenhouse in February and March. (Ready in November.) Dielytra Spectabilis. Large roots. 20c. each; \$2.00 per doz. If by Parcel Post add postage at Zone Rates on page 2 of cover. Packed weight ½ lb. each; 6 lbs. per doz.

OXALIS.

Charming little half-trailing or bushy plants particularly adapted for pot culture and hanging baskets, the foliage alone is very attractive and when in flower they are exceedingly pretty.

Bermuda Buttercup. This is one of the finest winter-flowering plants for pot culture, it is a strong luxuriant grower, and the great profusion of bloom produced in flowers are of the purest bright buttercup yellow. 5 each, 50c. per doz.; \$2.50 per 100. Mailed free.

> Grand Duchess. California varieties of great beauty; of dwarf sturdy growth throwing large, exquisite flowers well above the foliage. Extremely free-flowering, from November till June. Price for either White, Pink, or Lavender, 5c. each; 50c. doz.; \$2.50 per 100.

Henderson's Superior Freesias.

If by Parcel Post add postage at Zone Rates on page 2 of cover. Weight 1 lb. per 100; dozens mailed free.

Freesias are most popular for pot culture, flowering in the winter and spring in the conservatory, or window garden; 6 to 8 bulbs should be planted in a 4-inch pot. They force readily and can be had in bloom by Christmas if desired: the flowers are produced 6 to 8 on stems about 9 inches high.

A distinct and greatly improved type producing large sprays of purest snow shite flowers of immense size and deliciously fragrant; it is very free blooming and of great value for forcing for cut flowers. (See engraving) Extra Size Bulbs, 40c. per doz.; \$2.75 per 100; \$25.00 per 1000.

THE Fardel Colored Freesias.

These beautiful novelties are rapidly winning favor on account of their lovely and unique colorings viz., shades of pink, mauve, purple, vielet blue, yellow and orange. Very fragrant and free flowering. Each principal spike usually carries 7 to 9 flowers—while the side spikes of which each bulb produces several usually bear 5 to 6 flowers. Their culture differs in no way from that of the white Freesia. (Weight 1 lb. per 100.)

Mixed Hybrids. 12c. each; \$1.25 per doz.; \$8.00 per 100.

GERMAN IRIS. (Iris Germanica.)

Our collection contains many new and choice varieties, and we are confident they will prove revelations of beauty to Iris lovers. The roots should be divided and replanted every fourth year—in September as the plants are then dormant. The roots are ready for shipment from Sept. 15 to Nov. 15.

If wanted by Parcel Post add postage at Zone Rates on page 2 of cover. Packed Weight 2 lbs. per dozen. Single roots mailed free.

In addition to the colors described all varieties have golden beards.

Mixed German Iris—including many beautiful varieties	.07	.75	6.00

JAPAN IRIS. (Iris Kaempferi.)

These comparatively new Iris are magnificent. They differ from the German group in possessing fibrous roots, much more slender parallel leaves, and flat expanded flowers, which are minus the crest of hair or beard seen on the German Iris.

The flowers average 8 to 10 inches across and flash like watered silk in the sunlight. The prevailing colors are white. crimson, lilac, lavender, violet and blue; each flower usually possessing several shades of its particular color, and a golden vellow blotch encircled by a halo of blue or violet at the base of the petals much intensifies the colorings. There are very few denizens of the flower garden that can compare with the Japan Iris for brilliancy, and it is worthy of a prominent place in every garden.

The Japan Iris besides being very free flowering is perfectly hardy and grows readily in almost any situation, either sunny or partially shady; but the soil should be moist and the plants well supplied with water when flowering. They bloom in great profusion in June and throughout July, coming into bloom when other Irises are faded and gone, which to most flower lovers is an additional recommendation. The Iris plant is usually propagated by division of the roots, and this should be done in the fall of the year, so that the plants may be well established before winter. After the ground freezes over a light mulch of litter or manure will prevent heaving of the ground and a consequent loss of plants. Ready September to November.

Price—for any of the following named varieties—30c. each; \$3.00 per doz. \$22.00 per 100.

If by Parcel Post add postage at Zone Rates on page 2 of cover. Packed weight, 3 lbs. per doz. Single roots mailed free.

MODERN HERBACEOUS PEONIES.

A SELECTION FROM THE WORLD'S NEWEST AND BEST VARIETIES.

(See illustration opposite page 32.)

OUR DEPARTURE IN OFFERING PEONIES: It is the rule among most sellers of Peonies to send out divided roots, that is older plants cut into several 3 to 5 crowned roots. These of course can be sold at a lower price, but all Peony purchasers should know that normal flowers of maximum size will not be produced on these divided roots for two or three years. As most of our customers prefer to pay a little more and get older undivided roots therefore we are offering roots of 1, 2, and 3 years growth from the divided stage. These according to age, will give a greater quantity of bloom the succeeding summer if planted between September 1st and November 1st.

1, 2, and 3 years growth from the divided stage. These according to age, will give a greater quantit summer if planted between September 1st and November 1st.	y of bloo	m the suc	ceeding
